Price Guide For Bespoke Made to Measure storage systems

Colour options

We can do 22 colours at a standard height of 2096mm or for £30 more per robe we can make them taller or a bespoke width.

Alabaster, Alpine White, Cascina Pine, Cashmere, Dakar, Denim, Driftwood, Dust Grey, Ferrara Oak, Graphite Grey, Grey Bardolino Oak, Grey Nebraska Oak, Lancaster Oak, Light Grey, Light Lakeland Acacia, Mussel, Natural Dijon Walnut, Onyx Grey, Porcelain White, Silver Grey, Stone Grey & Platinum White.

- The storage offered has an 18mm solid back. This is better than leaving the wall on show as it gives a barrier between a cold wall and your clothes which is particularly important on older properties and north facing external walls. You may want to fit a panel on the back wall above the top shelf using a tall end panel to hide the wall completely but this will cost a little more.
- Each robe has a base, back, shelves where applicable and sides all made from superior 18mm chipboard which is the very best quality available. You don't see any floor or wall when you look inside just perfect robes by adding a panel on the back and side walls above the top shelf. Please note the continuous top shelf is sold separately from the units at a cost of £110 and comes at 2600mm long.
- Bespoke widths can be arranged for just £30 more except those with drawers or we can increase the height of the sides and back panel to a height to suit you for just an additional £30 up to 2500mm tall. You do lose the full length continuous top shelf if you ask us to do it this way and you still need a panel to form the roof of the unit and maybe an extra panel to use as an additional shelf so as to make good use of the ceiling height and space above the rails.

Other storage options are available on request and other colour options, indeed if you are able to do a drawing we will be happy to give you a price for your own bespoke design.

FITTING IS CHARGED SEPERATELY AND CHARGED AT £420 PER DAY FOR 2 MEN WITH ASSOCIATED TOOLS.

THE MATERIALS ARE ALL GUARANTEED FOR A PERIOD OF 6 YEARS FROM SUPPLY.

PLEASE NOTE : THE UNITS NEED TO BE BUILT LAID FLAT ON THE FLOOR AND THE STOOD UP INTO POSITION. WE WOULD ADVISE LEAVING 80mm ABOVE THE UNITS AS A MINIMUM TO ENSURE THEY CAN BE BUILT AND POSITIONED IN PLACE. THIS IS IMPORTANT IF YOU HAVE THEM MADE TALLER THAN THE STANDARD HEIGHT.
